## Improvement Permit

Address: 3830 Huffine Mill RD, Gibsonville, NC 27249      Permit Number: 15-12-SNHR-06321

This Improvement Permit shall be valid for five years from the date issued upon a satisfactory showing to the health department that the site and soil conditions are unaltered, that the facility, design wastewater flow, and wastewater characteristics are not increased, and that the wastewater system can be installed to meet the following requirements that were in effect on the date the Improvement Permit was issued.

Design Flow: 480

Facility Type: Residence

Bedrooms: 4

Conditions:

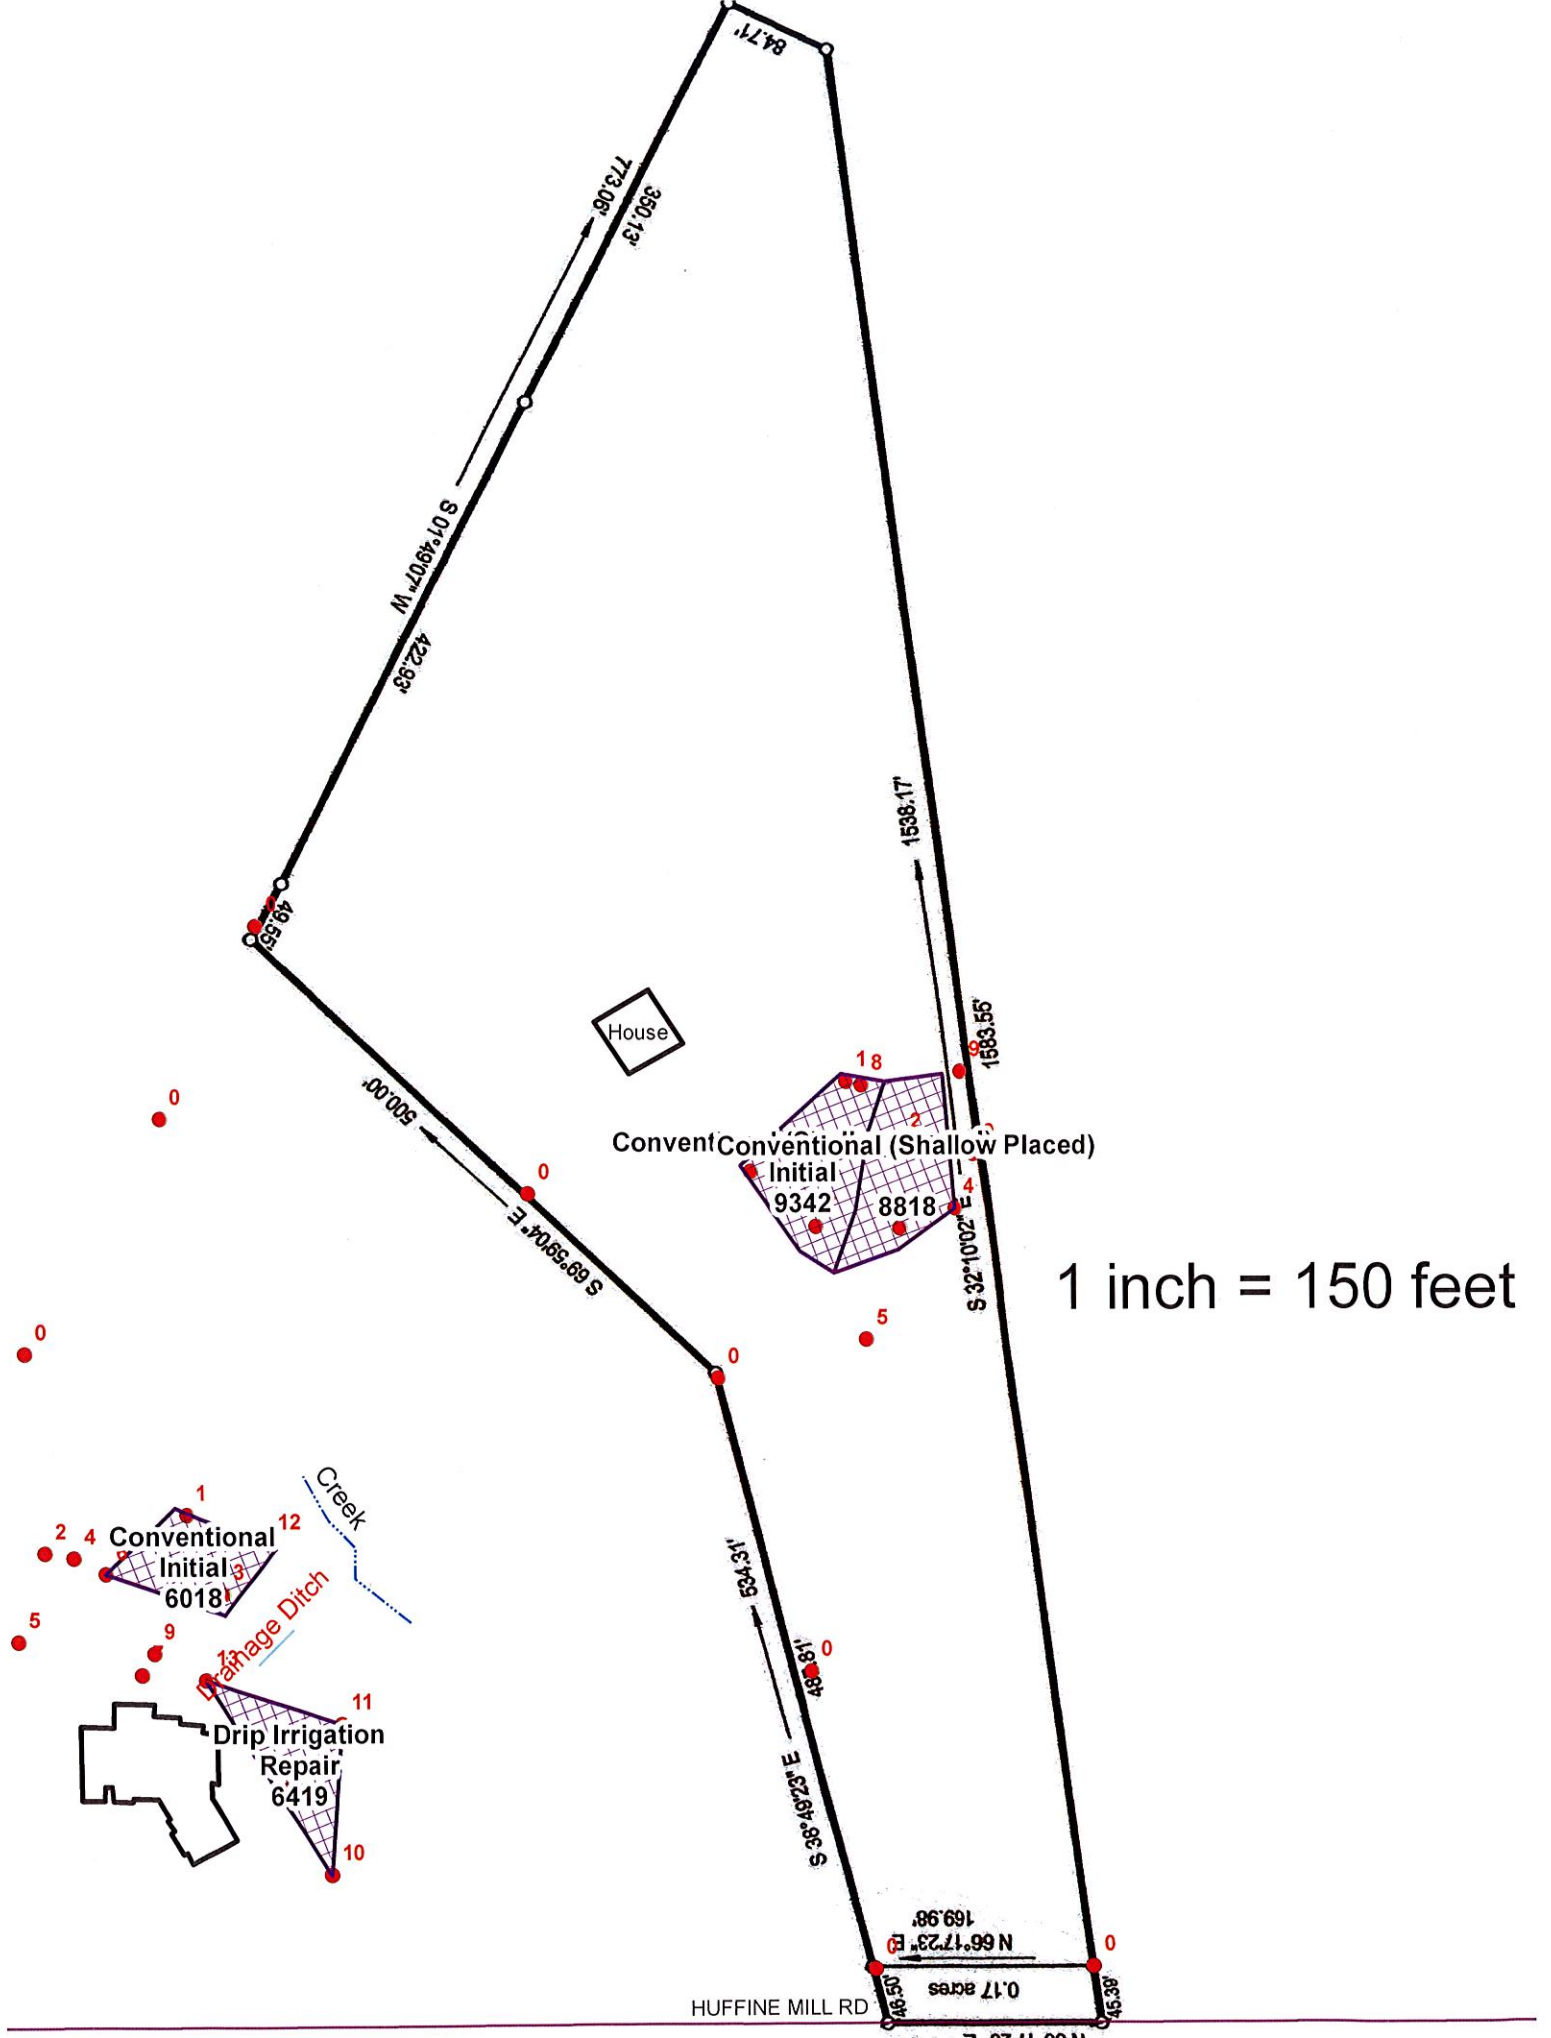

- Lot approved for a 4 bedroom/no basement SFR utilizing a shallow placed conventional initial and repair septic system. A cover may need to be imported if 6 inches of cover can not be achieved overtop of the septic system with the overburden.

Do not grade or disturb the approved area. Disturbance of this area, change of site plan, or change of intended use could result in the suspension or revocation of this permit. This is not an authorization to construct a wastewater system. The authorization for wastewater system construction with system specifications must be completed before any building permits or system installation can commence.

Permit Issued:

Eric Dublin REHS-I  
Environmental Health Specialist

Date Issued: 11/23/16
